LZD 2820

REAR MULTIFUNCTION LIGHT STRADA LZD 2820

TECHNICAL DATA

Light group HOR 124	Light category multifunction rear	LED light yes
LED quantity 71	Rear position light yes	Rear direction indicator yes
Number plate light yes	Brake light yes	Fog light yes
Reversing light yes	Reflecting device yes	Side left
Supply voltage 12/24 V	Cable 7×0,5 mm2; cable length 2 m	Operating temperature range from -30°C to +50°C
Ingress protection rating IP68		

DESCRIPTION

The modern rear multifunction light **STRADA LZD 2820 (left)** belongs to the HOR 124 product group, requires a universal supply voltage of 12/24 V and equipped with 71 LEDs. The lamp combines all important lighting functions applied for delivery vehicles and trailers, tow trucks and agricultural trailers. These are: NEON rear position light (2,2/5,5 W), brake light (2,8/3,6 W), reversing light (2,2/6,4 W), fog light (4,8/5,5 W), rear direction indicator (1,7/2,4 W), number plate light (0,5/1,2 W) and reflective triangle.

The lamp is made of high-quality materials with appropriate resistance to impact damage. The aspect of protection against the water-ingress, mud and dust is also important. In this case, **STRADA** lights offer a great IP 68 ingress protection rating. The wide permissible operating temperature range is from -30°C to +50°C. The lamp has the required European E9 homologation and is approved for use.

The multifunction lamp **STRADA** is a product of new aesthetic and necessary functional values, which thanks to the use of prime quality materials, will ensure a long service life.
