

MCR 2456

MOTION SENSOR MCR 2456

TECHNICAL DATA

Light category	Side	Supply voltage
interior	universal	12/24 V
Cable		
2 cables 2×0,75 mm ² ; cable length 30 cm		

DESCRIPTION

Motion sensor module compatible with interior lighting lights.

The module fits all interior lamps.

The number of lamps that can be connected depends on the total power. The maximum load of the motion sensor module is 50W.

The module response time is approximately 1 minute.

Wires:

black - power supply (white wire - "-", black wire "+")

gray - output to lamps (white wire - "-", black wire "+")
