Side	Supply voltage	Power rating
universal	12/24 V	0,4/0,7 W
Operating temperature range	Light colour	Ingress protection rating
from -30°C to +50°C	amber	IP68

DESCRIPTION

The **LD 500/ADR/0,5M/SS marker lamp with reflector** is designed for installation on commercial vehicles, trailers, and semi-trailers, including vehicles used [for the transport of dangerous goods in accordance with ADR requirements](#). It emits an **amber position light** that clearly outlines the vehicle, improving visibility and enhancing road safety both during the day and after dark.

The lamp features a practical mounting bracket and an integrated reflector, ensuring the vehicle remains more visible even when the light is switched off. Equipped with **3 high-performance LEDs**, it delivers long service life, low power consumption, and reliable operation in demanding working conditions.

Designed for both **12 V and 24 V** electrical systems, the lamp is suitable for a wide range of vehicles. It is fitted with a **0.5 m ADR-compliant round cable (2 × 0.75 mm²)** and a **Superseal connector with female terminals**. A matching **Superseal socket with male terminals** is supplied separately, making installation quick while providing a secure, waterproof electrical connection.

With an **IP68** protection rating, an operating temperature range of **-30°C to +50°C**, and **ECE R10 EMC approval**, the **LD 500/ADR/0.5M/SS** is built to withstand intensive professional use and deliver dependable performance in harsh operating environments.
