Operating temperature range	Light colour	Ingress protection rating
from -30°C to +50°C	amber	IP68

DESCRIPTION

The **LD 2216/ADR/0.5M/SS LED marker lamp** is designed for commercial vehicles, trailers, and semi-trailers, including vehicles [used for the transport of dangerous goods in accordance with ADR requirements](#). Equipped with an integrated reflector and **four high-performance LEDs**, it significantly improves vehicle visibility, enhancing safety on the road.

The lamp is fitted with a **0.5 m ADR-compliant round cable (2 × 0.75 mm²)** and a complete **Superseal connector set**, consisting of a plug with **female terminals** and a matching socket with **male terminals**, supplied separately. This solution ensures quick, convenient, and reliable electrical installation.

The housing is designed for **concealed mounting**, eliminating visible fixing elements and providing a clean, professional appearance. This makes the lamp an attractive finishing detail for commercial vehicle bodies.

With an **IP68** protection rating, **ECE R10 EMC approval**, and an operating temperature range of **-30°C to +50°C**, the lamp delivers reliable performance even under demanding road and weather conditions. Compatible with both **12 V and 24 V** electrical systems, it is suitable for a wide range of vehicles, while advanced LED technology ensures long service life, low power consumption, and dependable operation throughout its lifetime.
