

LDO 2660/ADR/1,5M/SS

WARNING LIGHT LDO 2660/ADR/1,5M/SS

TECHNICAL DATA

Light group	Light category	LED light
HOR 110A	ADR warning	yes
LED quantity	Warning light	Working mode
24	yes	F-flash
Connection method	Supply voltage	Power rating
screw-on	12/24 V	14 W
Operating temperature range	Working frequency	Light colour
from -30°C to +50°C	2,1 Hz	amber
Ingress protection rating		
IP68		

DESCRIPTION

The **LDO 2660/ADR/1.5M/SS** is an [LED warning lamp](#) designed for installation on vehicles transporting dangerous goods and compliant with the requirements of the **ADR Agreement**. Equipped with **24 high-performance LEDs**, it emits an intense **amber warning light** in a single flash mode with a frequency of **2.1 Hz**, ensuring excellent vehicle visibility and improving safety during operation.

The lamp is designed for **12 V and 24 V** power systems and has a power consumption of **14 W**. Its robust screw-mounted construction ensures secure and stable installation, even on vehicles operating in demanding conditions. The high **IP68** protection rating effectively safeguards the lamp against dust, water, and adverse weather conditions, while the wide operating temperature range guarantees reliable performance throughout the year. **ECE R10 EMC approval** confirms the lamp's resistance to electromagnetic interference.

The lamp is equipped with a **1.5 m ADR-compliant round cable (2 × 0.75 mm²)** terminated with a **Superseal connector** fitted with **female terminals**. A matching **Superseal socket with male terminals** is also included and supplied separately for self-installation, enabling a durable and waterproof connection to the vehicle's electrical system.
