Operating temperature range	**Light colour**	**Ingress protection rating**
from -30°C to +50°C	white	IP68

DESCRIPTION

LTD 702/D10 is a **compact LED license plate lamp** that provides white light and reliable performance. Equipped with **3 LEDs**, it is designed for 12/24 V electrical systems, making it suitable for various types of vehicles.

The LTD 702/D10 model stands out with its practical design. **The integrated 10 mm spacer allows the license plate frame to be mounted flush with the license plate light**, while maintaining the minimum distances from the license plate required by the type approval regulations.

The 0.5 m flat cable makes connecting the light easy, while the **IP68 protection rating** ensures a high level of protection against dust and water. The light is designed to operate in temperatures ranging from -30°C to +50°C, making it suitable for use in a variety of environmental conditions.

The product has been designed and manufactured by HORPOL, a Polish automotive lighting manufacturer that combines many years of experience with a commitment to quality craftsmanship and the durability of its solutions.
