LCD 3241

REVERSING LIGHT LCD 3241

TECHNICAL DATA

Light group	Light category	LED light
HOR 128	reversing	yes
LED quantity	**Reversing light**	**Side**
6	yes	universal
Supply voltage	**Power rating**	**Cable**
12/24 V	2,5 W	2×0,75 mm2; cable length 0,5 m
Operating temperature range	**Light colour**	**Ingress protection rating**
from -30°C to +50°C	white	IP68

DESCRIPTION

The **LCD 3241 reversing light** is an energy-efficient LED lighting solution that ensures excellent visibility during maneuvers. Equipped with **6 LEDs**, it emits high-intensity **white light**, meeting the **R148** and **R10** approval requirements. **Key features:** – Compatible with various means of transport – the light operates within a **12/24 V** range, making it suitable for different types of vehicles. – Energy-efficient performance – with a rated power of **2,5 W**, it provides optimal efficiency while consuming minimal energy. – Superior durability – its **IP 68** rating guarantees protection against dust and water, making it ideal for use in harsh conditions. – **Wide operating temperature range** – the light functions effectively even in extreme temperatures, enhancing its versatility. – **Complete mounting kit included** – the package contains mounting screws and caps. – **Flexible installation options** – can be installed with or without a holder, allowing for better adaptability to user preferences. Choose safety and durability – LCD 3241 by **Horpol**!
