| from -30°C to +50°C         | white                | IP 68  |

### DESCRIPTION

The **LD 675/GRAPHITE** marker light combines elegant design with high functionality. With its dark shade, the light follows modern trends in vehicle design while providing adequate visibility on the road. **Product features:** – **Front position light.** The lamp emits **white** light to enhance road safety by making your vehicle better visible in various conditions. – The light can be mounted either **on a straight rubber support or on a tube**, providing more flexibility to suit the user's needs. – **Number of LEDs.** Fitted with **4** high-efficiency **LEDs**, the lamp provides efficient lighting with minimal energy consumption. – **Universal supply voltage.** Operating at **12/24 V**, it is perfect for a variety of vehicle types. – **Low power rating.** With a power output of **0.4 W** (at 12 V) and **0.7 W** (at 24 V), the light is energy-efficient, a property that translates into longer life and less strain on the battery. – **High IP 68 rating.** The light is fully hermetic and resistant to mechanical damage. – **Wide operating temperature range from -30°C to +50°C.** Suitable for all weather conditions, the product will be a reliable choice all year round. ***Make sure you stay safe on the road!
