#### DESCRIPTION

**LD 3085** - is a corner marker lamp, intended for installation on the cab roof, which will work well in various types of vehicles such as: -buses; -vans; -sleeping cabins and spoilers; -agricultural and construction machinery; -lorries; -special vehicles. The symmetrical design allows universal installation (both on the right and left side of the vehicle). **LD 3085 front position lamp.** Thanks to the use of a special diffuser, the lamp emits clear, **white neon light**, emphasizing its shape, without blinding other road users. Modern design and high-quality materials used in its production make it a top-class product. The mounting screws are aesthetically sealed with gaskets. This lamp is characterized by a universal voltage of **12/24 V**, low energy consumption (**12 V-1.1 W, 24 V-2.1 W**), high ingress protection rating **IP 68** and an operating temperature range **from -30 degrees C to +50 degrees C**. This product will meet the expectations of even the most demanding users looking for reliable and durable lighting solutions for their vehicles.
